

April 2026

Community Notice – Upcoming Drilling Activities North Virginiatown

Gold Candle Ltd. wishes to inform residents of North Virginiatown and McGarry Township that diamond drilling activities are planned for spring to summer 2026 on our mining patents adjacent to the eastern extension of 27th Avenue in North Virginiatown.

We recognize that this work will take place in close proximity to our North Virginiatown neighbours and we are committed to keeping you informed, minimizing disruption, and addressing any concerns directly.

Timeline and Operations

Earthworks and site preparation, consisting of light brushing and access trail construction to the drill pad locations, are planned for April 2026. Diamond drilling operations are planned to commence in May 2026 and continue through approximately July 2026. One drill rig will operate at the Upper CVE location during this period. Operations will run 24 hours per day, 7 days per week during active drilling phases and will include a diamond drill rig and support vehicles for personnel and material transport.

What to Expect

- Drill sites within mining patents as shown on map
- Trail access from residential streets with periodic equipment transport
- Increased industrial traffic during mobilization and active operations
- Completed drillholes secured with 2-metre flagged steel casing caps

Safety and Environment

Gold Candle and its contractors maintain established operational standards:

- Clearly marked safety perimeters and signage around active drilling areas
- Spill prevention systems at all fuel and fluid storage locations
- Noise mitigation through sound-dampening blankets, specialized mufflers, and portable sound barriers
- Progressive site restoration upon completion

All work is conducted on mining patents under Gold Candle's mineral tenure rights in compliance with Ontario's Mining Act, Occupational Health and Safety Act, and applicable environmental regulations.
